

Brukerveiledning for ekstern pålogging til Terminalserver, Portaler og IFS

Gå som tidligere til www.ostfoldenergi.no og velg "For eksterne brukere"

Velg "Terminalserver", "Portaler" eller "IFS" og du får opp et nytt påloggingsvindu

Terminalserver

Portaler

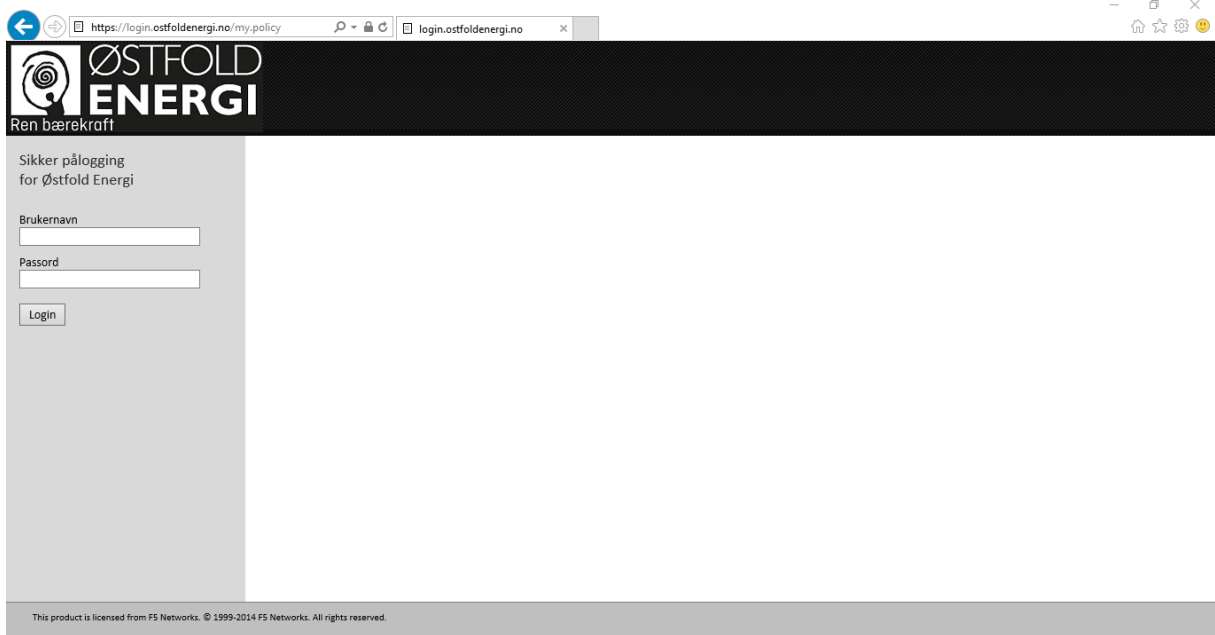

IFS web portal

Fjernstyring av PC

Skriv inn brukernavn og passord og velg "Login"

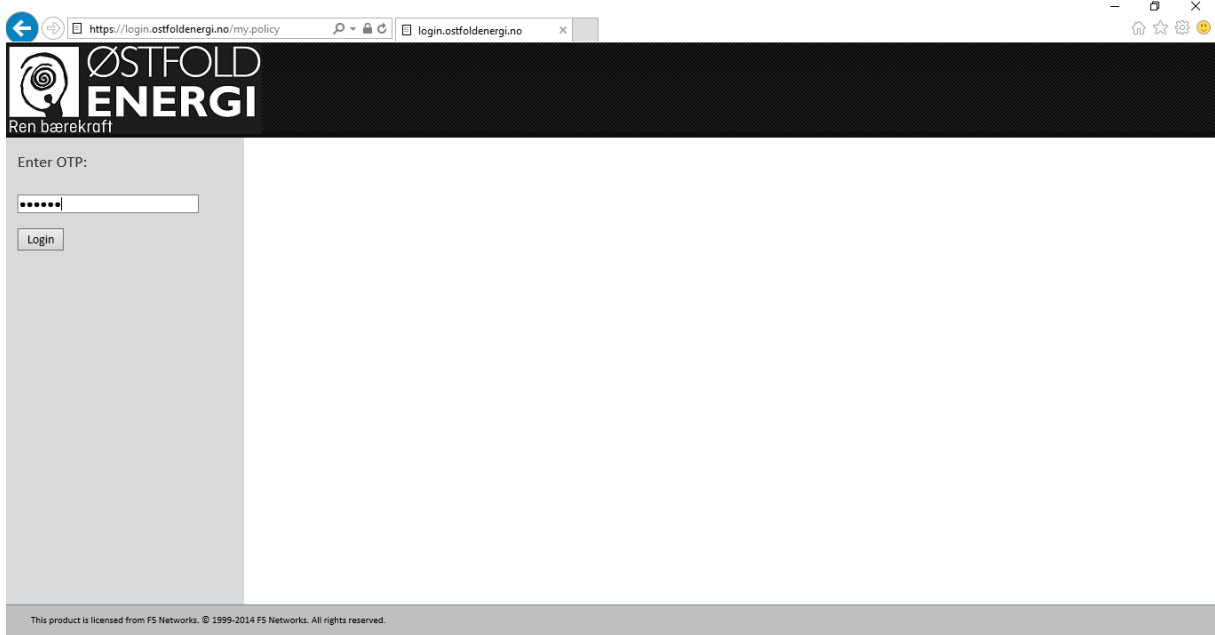

The screenshot shows a web browser window with the URL <https://login.ostfoldenergi.no/my.policy>. The page header features the Østfold Energi logo and the tagline "Ren bærekraft". The main content area is titled "Sikker pålogging for Østfold Energi" and contains a login form with the following elements:

- Label: "Brukernavn" (Username)
- Input field for the username
- Label: "Passord" (Password)
- Input field for the password
- Button: "Login"

At the bottom of the page, there is a small copyright notice: "This product is licensed from FS Networks. © 1999-2014 FS Networks. All rights reserved."

Du kommer til en ny side hvor du må skrive inn "OTP"

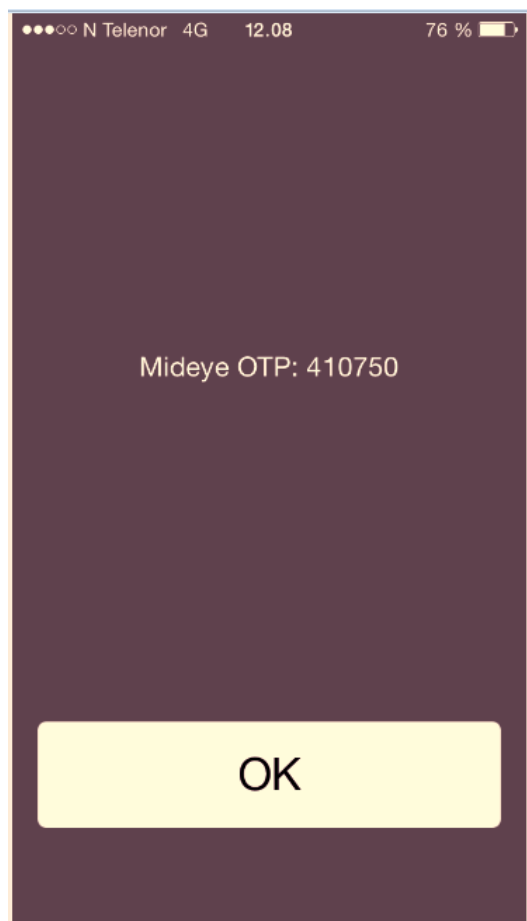

The screenshot shows the same web browser window as above, but the login form has changed. The main content area is now titled "Enter OTP:" and contains the following elements:

- Input field for the One-Time Password (OTP), represented by a series of dots.
- Button: "Login"

The rest of the page, including the header and footer, remains the same as in the previous screenshot.

OTP er "one time password" som kommer umiddelbart opp på din telefon.

Du får ny kode for hver gang

"Portaler" eller "IFS" er nå klar til bruk
